

VISHNU CHAUHAN

Full Stack Developer | ASP.NET MVC Developer | Angular Developer

📍 Surat, Gujarat, India 📞 9898370990 📄 GitHub 🔗 LinkedIn 🌐 **Live Portfolio**

PROFESSIONAL SUMMARY

MCA graduate and Full Stack Developer with hands-on experience in ASP.NET MVC, Angular, Firebase, Android (Kotlin), PHP, SQL Server, MySQL, JavaScript, and Responsive Email Template Development. Experienced in developing HRMS systems, business management applications, admin dashboards, e-commerce platforms, and Android applications. Worked on internship and freelance projects involving enterprise software development, user management systems, and frontend engineering. Strong problem-solving, team collaboration, and AI-assisted development skills. Currently exploring .NET MAUI, cloud technologies, and modern software architecture practices.

TECHNICAL SKILLS

Programming Languages	C, Advanced C, C++, C#, JavaScript, PHP, Kotlin, Dart, SQL
Frontend Tech	HTML5, CSS3, Bootstrap, Angular, Responsive Email Template Development, HTML Email Design, Cross-Client Email Compatibility
Backend Tech	ASP.NET MVC, Firebase, PHP
Databases	SQL Server, MySQL, Firebase Database
Tools & Platforms	Visual Studio, VS Code, Android Studio, Git, GitHub
Currently Exploring	.NET MAUI, Cloud Technologies, System Design, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Software Developer Intern | *Codex Software Solutions*

Internship

Technologies: ASP.NET MVC, SQL Server, Firebase

- Developed core modules for Human Resource Management System (HRMS) including employee management, attendance tracking, complaint handling, and hiring workflows.
- Executed database design, CRUD operations, reporting modules development, and complex business workflows.

- Maintained and optimized Restaurant Management System through debugging and feature enhancements.
- Managed and maintained the Diz Admin Panel structured around comprehensive Firebase integration.

Freelance Developer | *DG Empiror*

Freelance Project

Project: Amrutum | Technology: Angular

- Developed fully responsive user interfaces and comprehensive admin dashboard components.
- Engineered highly interactive application screens and custom enterprise workflows using Angular.
- Partnered closely with design teams to iteratively improve application workflows and end-user accessibility.

KEY PROJECTS

Human Resource Management System (HRMS)

ASP.NET MVC, C#, SQL Server

Workforce management ecosystem regulating records, attendance metrics, custom recruitment flows, and secure role-based administrative authentication layouts.

Dog Registry Management System

ASP.NET MVC, C#, SQL Server, Bootstrap, JS

Centralized platform tracking lineage records, breed details, comprehensive vaccination/health schedules, and administrative reporting utilities.

Urban Company Management System

ASP.NET MVC, C#, SQL Server, Bootstrap

Service management portal accommodating interactive vendor onboarding workflows, service visibility authorization chains, and booking frameworks.

Diz Admin Panel & Amrutum

Angular, Firebase, Bootstrap

Dual dashboard and client-side systems featuring real-time state synchronization, robust data schemas, and highly responsive rendering components.

ElightHub E-Commerce

ASP.NET MVC, SQL Server

Online computer accessories outlet engineered with catalog indices, shopping carts, checkout states, and transactional auditing structures.

Tunix Music Player & Driving School Portal
Kotlin, Android Studio | Core PHP, MySQL

Native audio implementation utilizing local playback engines alongside a web scheduling solution tracking student lesson allocations.

EDUCATION

Master of Computer Applications (MCA)

Completed: 2024

SCET College, Surat

Bachelor of Computer Applications (BCA)

Completed: 2022

C.B. Patel College, Surat

ADDITIONAL STRENGTHS & INTERESTS

Core Strengths: Responsive Email Template Development, Cross-Client Email Engineering, Team Collaboration, Analytical Problem Solving, Prompt Engineering & AI-Assisted Development, Rapid Paradigm Adaptation.

Interests: Swimming, Cricket, Football, Competitive Gaming, Advanced AI Tools Experimentation.
